SUMMARY

UX/UI & Product Designer with 3+ years of experience designing responsive web and mobile products, from user flows and wireframes to high-fidelity Figma prototypes and developer handoff. Skilled at turning complex requirements into clear, usable interfaces and at using AI tools to speed up ideation and iteration while keeping user needs first. Working knowledge of HTML, CSS, and Bootstrap for effective collaboration with developers.

EXPERIENCE

UX/UI Designer | IBaseIT **Nov 2022 – Jan 2026**

- Designed end-to-end UX/UI for web and mobile products, from early concepts to developer handoff.
- Simplified complex user flows and restructured outdated experiences so they are easier to understand and use.
- Turned complex requirements into Figma prototypes, using early stakeholder feedback to reduce rework.
- Redesigned and modernized web and mobile UI, keeping it consistent and responsive across screens.
- Built reusable Figma components to keep the UI consistent and speed up design work.
- Collaborated with developers and stakeholders in Agile sprints to deliver developer-ready designs.
- Used AI tools to speed up ideation, documentation, and design iteration, checking outputs against user needs.

SELF-INITIATED UX CASE STUDIES

- **mDoc (healthcare app redesign):** Redesign end to end, from user flows, wireframes to high-fidelity ui screens in Figma, used AI tools to support ideation.
- **Lingcars (car rental website):** Redesigned the homepage and filters page for easier browsing.
