SUMMARY

UX/UI Designer with 3+ years of experience designing responsive websites and mobile applications. Skilled in translating business and user requirements into user flows, wireframes, prototypes, and high-fidelity interfaces to improve usability. Experienced in Agile environments and leveraging AI-assisted tools to support research, ideation, and rapid prototyping. Strong understanding of HTML, CSS, and Bootstrap for effective collaboration with developers.

EXPERIENCE

UX/UI Designer | IBaseIT

Nov 2022 – Jan 2026

- Led end-to-end UX/UI solutions for responsive web and mobile app redesign projects, from discovery and wireframing to high-fidelity design and developer handoff.
- Translated business requirements into user flows, wireframes, interactive prototypes, and high-fidelity designs.
- Designed visually compelling UI interfaces aligned with brand guidelines and modern design trends to strengthen product identity.
- Conducted usability testing, competitive analysis, and incorporated stakeholder feedback to drive data-informed design decisions.
- Built reusable components & design systems to maintain design consistency across products.
- Applied mobile-first and responsive design principles to optimize user experience across devices.
- Collaborated with product managers and developers in agile sprints to ensure design feasibility timely delivery.
- Integrated AI tools into the design workflow to improve efficiency in wireframing, documentation, and design iterations.
